European Network to Support Guidance and Counselling

Euroguidance is ...

Euroguidance is a **transnational European network** of different Euroguidance centres in most European countries.

Euroguidance promotes international mobility and the **European dimension in guidance and counselling** by sharing quality information and good practices.

Euroguidance Target Groups are guidance practitioners and policy makers from both educational and employment sectors as well as anyone interested in mobility.

Seminars and **conferences**

Educational opportunities for counsellors

Meetings of counsellors from various fields

Sharing experience within all European countries

What does the Euroguidance network do?

- **Internationalises** guidance and counselling policies.
- Supports the process of European **integration** by offering possibilities for international cooperation and mobility in the field of guidance and counselling.
- Shares good practices, **experiences**, tools and working methods.
- Supports **networking** and mobility of counsellors at national, regional and European level.
- Promotes ethical standards for the achievement of better **quality** guidance and counselling services in Europe.
- **Cooperates** with other European networks (Europass, EURES, Eurodesk, NARIC, EUROPE DIRECT Information Relays, etc).
- Provides **information** on and facilitates access to up-to-date information to counselling and guidance services and events (seminars, conferences, study visits, etc.).
- Helps overcome barriers to an individual's choice of **personal development** and career.
- Produces quality **information on mobility** opportunities for learning purposes.
- Supports the Learning Opportunities and Qualifications in Europe **portal** (<http://ec.europa.eu/ploteus>).
- Euroguidance **newsletter**: informs on relevant developments and projects throughout Europe by the Euroguidance network.
